Royal Navy Will Refit 100 Ships

Step Being Taken In View of Great World Situation

LONDON, Sept. 21.—(AP)—Britain considers the international situation so grave that it suspended commercial work in the Royal Dockyards today in order to refit about 100 warships for service.

An official navy announcement said the ships are to be made ready for duty before April. An Admiralty spokesman said, however, the work can be done quickly—perhaps within two months.

OTHER MOVES

The announcement of the big naval preparations move came soon after the government allowed the demobilization of the armed forces, stepped up recruiting of new troops, began demobilizing the fleet, and refitting of the naval vessels will involve major ship chits. The Royal Navy's big battleships, cruisers and aircraft carriers, though not all in use at any one time, are kept in a comparative state of readiness.

Admiralty records showed that last spring the navy had reserved 63 destroyers, 18 frigates, two mine submarines, 13 minesweepers and three fleet minesweepers.

USE 5 DOKYARDS

The admiralty spokesman said it was from these reserves that the ships to be refitted would be chosen. Work will be carried on mainly at the large naval dockyards at Devonport, Portsmouth, Chatham, Sheerness and Rother.

These yards have been working on small civilian projects.

Rapid Progress Is Made With West Harvest

OTTAWA, Sept. 21.—(CP)—About 100,000 bushels of wheat, an "excellent" harvesting weather has helped prevail conditions in the prairie provinces over the last month, the Dominion Bureau of Statistics said today in the last of a series of telegraphic crop reports.

Rapid progress in harvesting cereals had been made in Manitoba, Saskatchewan and in northern Alberta, the bureau said. Harvests held up well in northern Alberta, the bureau said, under cover within three weeks.

Quality of cereals generally is high throughout Manitoba and Saskatchewan. In Alberta, the quality is variable, particularly in the south, where frost and wet weather have affected the sample.

Treaty Extended LISBON, Sept. 21.—(Reuters)—The Portuguese and Spanish governments have agreed to extend for another 10 years the friendship and non-aggression pact they signed in March, 1926, it was announced last night.

Slain Count and American Wife

SLAIN MEDIATOR, Count Folke Bernadotte of Sweden, shown with his wife, the former Estelle Manville of New York, in a photograph made last July. Count Bernadotte, appointed by United Nations to strive for end of Palestine hostilities, was assassinated in Jerusalem by men in uniform.

ANNUAL ROUNDUP IN B.C.

Wild, Woolly Brothers Shoot Each Other Up

PORT ST. JOHN, B.C., Sept. 21.—(CP)—Bill Boring limped into this Alaska highway town yesterday and told police a tale of ranch rivalry in Texas that is the racing country between the ranches of the Boring and the Boring.

He pointed to a gunshot wound in his arm as proof.

Police listened to his story and then sent a posse to Highway 1, to pick up Bill's brothers, John

and Eugene Boring, on an attempted murder charge.

According to police, the "outlet" climaxed an annual shooting affair which had continued for the best part of the 20 years since the Texas-born brothers settled in the Halvay district.

The occasion, police say, is roundup time. The brothers have to hunt down the cattle and neighbors report hearing gunfire from the ranch every year

as the brothers, their wives and numerous children differ as to the split in the profits.

Police say neighbors have learned to keep out of the racket. The Boring report is a strictly family affair and object violently to outsiders' horn in.

Halfway is 140 miles north of Port St. John. The posse will have to take a bush track to reach the Boring battleground.

Indian Sights Lost Plane But Report Lacks Details

THE PAS, Man., Sept. 21.—(CP)—Two Indians set out today from the northwestern Manitoba settlement of Skownan to look for one of their comrades who may hold the key to the whereabouts of a United States navy plane missing for 10 days.

The two Indians were commissioned to track down another Indian who entered Skownan with word that he had watched the plane. His information touched off a wave of optimism that the search for the plane and its five occupants might be drawing to a close.

Vanishes in Bush After advising Skownan residents that he had watched the plane, the Indian trekked back into the bush. He left before Sgt. Ldr. Jack Hone of the RCMP reserve reached the settlement to interrogate him. But two other Indians undertook to set off after him and bring him back for questioning.

Hone, a former ex bush pilot, reported back to base here today that the missing Indian might be brought back to Skownan today. Skownan is 100 miles southeast of the RCMP post.

The child said that the man had disappeared under a bush near a nearby wharf, but a search of several hours by her parents and neighbors of the district failed to locate her.

RCMP at Leduc and Wetaskiwin were notified under a search party including police and residents of the district was organized. The child said she had seen a Bonnyton from Calgary Monday and in being used today in an effort to pick up the woman's trail.

Police here said the woman had disappeared under a bush near a nearby wharf, but a search of several hours by her parents and neighbors of the district failed to locate her.

Collapse Of Queuille Said Near

French Cabinet Jolted By Move Of Red Opponents

PARIS, Sept. 21.—(CP)—The Communists will resign rank file wildfire through Paris this morning as a special cabinet meeting was called at 11 a.m. The cabinet was formed only 10 days ago.

Today's cabinet meeting ended with a little change in the cabinet. A minister, who declined to be named, said there was no disagreement on any subject between the members of the cabinet.

The Communists, for information, Francois Mitterrand, announced that the cabinet meeting was devoted entirely to the question of wages and prices.

He said several ministers raised the question of local elections at the beginning of the cabinet meeting, but the majority of ministers agreed that this question was "premature."

The Communists joined Queuille's moderate government last night by coming out in favor of municipal elections.

Last night's Communist manoeuvre was viewed as a move to embarrass Queuille and to force the Socialists and the Centre Movement, Republican Popularists to the polls just after Queuille's cabinet, made up chiefly of members of these parties, had voted a series of unpopular new taxes.

Over-ride Decision Queuille now has to decide what to do about the elections. The decision is to be made before the assembly because the council of the republic, upper house of parliament, over-ride a decision to postpone them.

Price Probe Slated On Lumber Prices

OTTAWA, Sept. 21.—(CP)—The prices commission, now in recess, will start work here today with a lengthy probe into the lumber industry, an official of the commission said.

The probe into the lumber industry will be exhaustive and bookkeeping lumber industry will be called from as far west as Alberta, an official said.

Accept Ultimatum For Disbandment

TEL AVIV, Sept. 21.—(Reuters)—Irgun Zvai Leumi, Jewish terrorist organization, today accepted an Israeli government ultimatum ordering its disbandment and the handing over of its "army" to the Israeli defence forces.

The government yesterday gave Irgun 24 hours to comply with its ultimatum.

Most Irgunists now are affiliated with the political party called the "Freedom Movement", headed by Menachem Beigin, one-time commander of Irgun in Palestine.

A government spokesman earlier today said the names of suspects arrested in connection with the murder of Count Folke Bernadotte, United Nations mediator, last Friday, are being withheld "until we are certain all members of the gang have been rounded up."

Investigation of suspects is continuing.

An Irgun spokesman said that the government's ultimatum to the extremist group resulted from Bernadotte's assassination. The spokesman said that from August three weeks ago to negotiate on a similar demand by the government that Irgun arms be surrendered and its men turned over for enlistment into the Israeli army.

He did not elaborate.

ARAB REJECTS The Jewish state newspaper Al Manti said editorially: "Arab circles are quite shocked by the Palestinian assumption that the Jews prevented the Jews from dominating the whole of Palestine."

"By this assumption Count Bernadotte was aiming at weakening Arab morale to make them accept his so-called racism."

The paper concludes that the proposal to let Arab states decide the fate of non-Jewish Palestine was "an attempt to divide Arab states among themselves."

At Manti's editorially: "Count Bernadotte's proposal rest fundamentally on partition; therefore it is regrettable that Count Bernadotte should have made a report full of errors and based on false premises."

BERNADOTTE'S REPORT (The report of Bernadotte, prepared before he was slain in Jerusalem, said that the Jewish state of Israel "is a living, solidly entrenched and vigorous reality.") He said United Nations should step in to end the Palestine war and force the Jews and Arabs fall to make peace.)

U.S. Endorses Count's Report

WASHINGTON, Sept. 21.—(AP)—The United States today endorsed Count Folke Bernadotte's report on Palestine as a "sound basis for settlement" of the Jewish-Arab dispute over the Holy Land.

Bernadotte, the assassinated United Nations mediator, set forth his proposals for attaining peace in Palestine in a 3,000-word report dated yesterday with a year heard for his trial.

Huge Jet Bomber Explodes, 2 Killed

TULSA, Okla., Sept. 21.—(AP)—A huge United States Air Force 400-mile-an-hour jet bomber exploded yesterday with a year heard for his trial. Two test pilots aboard were killed.

It Happened TODAY

Trade & Industry

Julius Hochman, manager of the Dress and Wain, makers of the "Joint Board" described the beating of joint board agents and a raid on a picket line as the "repercussion of racketeering in the dress industry. It was in that industry the gang, later known as "Murder, Incorporated," got its start.

Queen Juliana of The Netherlands said Holland will strive for the "idea of an international community in the framework of the United Nations," and will work to remove all barriers in the way of an economic union with Belgium and Luxembourg. Holland is also, she said, starting arrangements for naval and air contributions to the joint defence scheme set up by the Brussels pact.

Britain's second labor five-year plan, taking shape in preparation for the 1950 general election, will propose: (1) An overhaul of national industries to see that workers get the maximum benefit; (2) national control of the distribution of food stuffs and (3) a complete overhaul of the civil service.

Religion
The "holiest embrace" at the close of marriage ceremonies is "in bad taste" in the opinion of Rev. Frank J. Bauer, who addressed the pastoral conference of the Missouri Lutheran Church in Anglin, N.Y. "Nor does the minister who is engaged to kiss the bride in a liturgical, to say nothing of moral, right," he added.

The Nation
Humphrey Mitchell, Canadian Minister of Labor, told the general council of the International Refugee Organization in Geneva that 30,000 refugees and displaced persons have been assimilated into Canada since the war. Canada, he said, expects to reach her goal of 100,000 by July, 1950.

At the opening of the Northwest Aviation Planning Council convention, Les Dolan, chief of the Canadian Travel Bureau, warned of aerial lawbreakers. "Canadian game laws," he said, "condemned in the harshest words possible those who violate Canada's hunting and fishing grounds who break game laws. Sportsmen using airplanes to travel into the wilds must observe fish and game laws of the province."

Higher family allowances, increased income tax exemptions and greater collaboration between the federal and provincial governments on social and economic matters were urged in Ottawa today by a delegation of the Jeunesse Ouvrière Catholique, an organization of young Catholic workers. Their brief was presented to Health Minister Marlin.

Dr. George Clark, Ottawa director of dental health, told the 71st annual convention of the Eastern Ontario Dental Association, that more dentistry for children is the key to a nation's health. Some dentists, he accused, did not want to treat children on "flimsy grounds of unnecessary discomfort and expense."

People
The Very Rev. Hewlett Johnson, Dean of Canterbury, has been re-elected to speak in the U.S. The invitation this time was extended by a group of 93 scientists, religious leaders, college presidents and authors. The first invitation, by the Council of American-Soviet Friendship, resulted in the Dean being refused a visa by U.S. authorities.

A men's fashion parade was held in London, England, in the form of a play in which 17 professional actors modelled everything from sports to evening

Drew Entry Cuts Leadership Field

Decision of Ontario Premier Narrows Down Tory Race

By D'Arcy O'Donnell
OTTAWA, Sept. 21.—(CP)—The decision of Premier Drew of Ontario to contest the Progressive Conservative leadership in the federal field may narrow down the list of leadership candidates at the party's forthcoming national convention, a party official said today.

He said the field might be narrowed down to three or four candidates by the time nominations close at the convention Sept. 28, Oct. 1-2. Deadline for nominations has been set at 4 p.m. Edmonton time, Oct. 1. Voting will take place the following day.

3 OTHERS IN RING
Besides Mr. Drew, three other men have announced their intention of contesting the leadership which John Bracken, 65, is giving up because of his age and ill-health.

John Diefenbaker, 35-year-old member of the commons for Lake Centre in Saskatchewan, announced his candidature Sept. 17.

Earlier J. W. Hanna, 55, member of the Ontario legislature for Huron Bruce, and Garfield Case, 48, member of the commons for the Ontario constituency of Grey North announced that they would be candidates.

However, signs of the narrowing down already were apparent last night when the Ontario Conservative Party announced his withdrawal.

He said Mr. Drew "is beyond all question the man for the job. Now that Premier Drew, my leader, is definitely in the race, I feel it is only proper that I should withdraw and throw my support behind him."

CASE MAY ALSO QUIT
The official said there was a possibility that Mr. Case also will withdraw his name before the convention opens and throw his support behind Mr. Drew or Mr. Diefenbaker.

There is a possibility, said the official, that Leslie Fleming, 43-member of the commons for Toronto-Eglinton, and E. D. Fulton, 32-member for the British Columbia riding of Kamloops, might also enter the contest.

Others might be nominated, but it was unlikely that they would follow their names to stand before the convention.

WOMAN KILLED BY AXE

Gold, Uranium Claim Said Murder Motive

GOLD BRIDGE, B.C. Sept. 21.—(CP)—A cache of gold may have been the motive for the slaying of Mrs. Bertha Stickney, 50-year-old case owner, here.

Lloyd Williams, 30-year-old unemployed miner, Monday was charged with her murder. He was remanded for preliminary hearing, pending the holding of an inquest.

Yukon-born Mrs. Stickney, almost a legendary figure of northern mining camps, died in a tiny bedroom at the rear of the cafe—the Gold Pan Cafe—Saturday.

She had been beaten with an axe. Friends, reporting that she may have had a cache of gold, today advanced a theory of robbery.

Another theory was that she may have died in a fight over ownership of uranium claims.

Gold Bridge, centre of a reported uranium field, has had many prospectors in recent weeks, his stake sold and was promised partnership, friends reported.

Mrs. Stickney had worked in mining camps from Dawson to El Paso, and had run trap lines in the north along the Yukon telegraph line.

She had operated dance halls and restaurants in many camps, and also took turns at prospecting.

HENRY LEAPS VOTE HURDLE

WHITE PLAINS, N.Y. Sept. 20.—(AP)—Henry A. Wallace, Progressive Party candidate for the United States presidency, had to prove today that he can read and write before registering as a voter in the November election.

Wallace, now a resident of nearby South Salem, took the test and passed it with flying colors.

Party Loud Five Are Slain

KANSAS CITY, Sept. 21.—(AP)—Five men were fatally shot and two wounded last night in a gang fight growing out of a routine police call in an apartment building.

Charles Neaves, 30, and Sandy Washington, 26, patrolmen, were shot while investigating a disturbance call about a "loud party" in an apartment building.

Police identified the other dead as William Bell and Edwin Burton, Warren who were in the apartment building. Warren died in a hospital.

Police said Bell and at least one other man participated in the fight against the officers in and around the three-story building. Approximately 30 policemen and deputy sheriffs were sent to the scene.

Police said Bell shot to death two of the officers and was killed by patrolmen in a gun fight that followed the incident in the apartment house.

Patrolman Charles Langley said he and Portner were the first of the reinforcements to arrive, and they rushed the house, with Langley in front.

Two Trucks Collide, At Least 11 Die
LAFORCE, Ind. Sept. 21.—(AP)—Two trucks collided in a driving rainstorm near here yesterday, killing at least 11 men, field workers and injuring six others. The workers were on their way home from a day in the Kanawake River valley fields.

Cripps Seeking War Materials in Dominion

Cut in Lords' Power Okayed

By George Kitchen
OTTAWA, Sept. 21.—(CP)—Defence emerged today as the No. 1 factor behind the economic and financial talks now unfolding here between Sir Stafford Cripps, Britain's Chancellor of the Exchequer, and Acting Prime Minister St. Laurent and other members of the Canadian cabinet.

As the discussions opened this morning in the East Block, site of the prime minister's office, authoritative sources disclosed that Sir Stafford sought from the cabinet information about the type and quantities of strategic materials Canada would be able to ship to Britain on a long-term basis.

These sources said that while the discussion was about trade, the emphasis was more on the potential goods of war than on the goods of peace.

The question of the stockpiling of strategic and raw materials was said to have entered the talks and Sir Stafford was reported to have asked about Canada's ability to supply finished goods, such as vehicles and armaments.

It was an uneasy international situation existing abroad, sources close to the government said that defence always "cramped" up even high-level talks these days and that it was one of the primary reasons for Sir Stafford's visit to Canada.

The discussions with the cabinet committee are expected to continue throughout the day. Later in the week, Sir Stafford will confer privately with the various ministers concerned.

He will remain here until the weekend before flying to Washington to take part in international financial talks.

Lie Denounces Slayers Of Bernadotte, Serot
PARIS, Sept. 21.—(AP)—United Nations police force was demanded here today by Trygve Lie, secretary-general, as the general assembly opens its sessions.

Foremost problem among the multitude of questions confronting the UN was that of Palestine—and more immediately, the shooting of the UN mediator and his aide.

Lie told the assembly that Count Folke Bernadotte and Col. Andre Serot were "killed in cold blood by deliberate assassinations and in open defiance of their privileged position as neutral and unarmed officials representing the whole United Nations."

"This grave incident would seem to make it evident to everybody that the United Nations in certain circumstances cannot depend on local authorities for the safety of its representatives, and consequently must be prepared to ensure their safety by its own means."

Herbert V. Evatt, deputy prime minister of Australia, was elected president of the United Nations general assembly's third meeting. Evatt was elected on the second ballot.

U.S. Destroyers Are To Bolster Turkish Fleet
WASHINGTON, Sept. 21.—(AP)—The Turkish fleet soon may be bolstered by several modern American destroyers, diplomatic officials said today.

Negotiations for the transfer under the United States-Greek-Turkish military aid program are in the final stage, they said.

The destroyers would add considerable striking power to the generally-outdated naval forces which Turkey guards the strategic Bosphorus.

The American buffalo is really a lion.

City Radio Ham Wins Covered Certificate

John M. McNamee, 11200 100 avenue, has been awarded the coveted "WAC" certificate of the International Amateur Radio Union.

The initial "WAC" stands for "worked all continents," and is awarded to amateur radio operators who have communicated with at least one amateur station in each of the six continental areas of the world.

To qualify for the award, Mr. McNamee was in two-way radio-telegraphic communication with amateurs in Liberia, Argentina, Australia, Czechoslovakia, Washington, D.C., and Asia.

The International Amateur Radio Union is an affiliation of amateur radio societies throughout the world.

Franco, Don Juan 2nd Talk Reported

MADRID, Sept. 21.—(Reuters)—Generalissimo Francisco Franco has had his second meeting within a month with Don Juan, leader of the Spanish throne, a reliable source said last night. The source said they met last week about a Spanish destroyer and that Franco told Don Juan he would recognize the Prince of Asturias—Don Juan's eldest son—as heir to the throne if Don Juan would give up his claim.

THE LEADER SINCE 1892

CALGARY GINGER ALE

Ginger Ale

A Product of CALGARY BREWING & MALTING CO. LTD.

Now more people call for "CALGARY" than ever before in its history of 56 years.

Greater Prosperity in Town and Country...

ON Saturday nights, all across Canada, the shopping centres of towns and smaller cities are crowded with farm automobiles and farm produce. Side by side with the town dwellers, farm people buy all kinds of consumer goods, from breakfast foods to household goods to cosmetics, from razors to refrigerators. You can't tell whether the man in the tweed jacket is a farmer or a doctor, whether the woman with the "new look" is from the farm or the town.

Time was when farm buying was more limited, when farmhouse furnishings were more meagre, when you could often distinguish farm folk from town folk by their appearance. The change is due directly to the increase in the buying power of farm families.

While the number of farms in Canada has actually decreased during the past 25 years, the area of improved land has been increased by 22 million acres, and the gross value of annual farm production has been increased by approximately 86 per cent. The reduction in operating costs, effected by modern farm machinery, gives the farmer today much more money for both the necessities and luxuries of life.

All of which has broadened the market for the products of Canadian factories, created more jobs for Canadian workers, provided more traffic for railways and truck lines, expanded the volume of retail merchants.

Greater prosperity for all.

Massey-Harris... the largest manufacturers of farm implements in the British Empire... has contributed in no small measure to this progress through the development of modern labor-saving farm machinery.

Over 600 Students Register at University

Official registration of undergraduates at University of Alberta here is continuing today following the signing up of 607 students on the first day, Monday.

Monday's figures fell almost 200 below those of last year when 801 students registered on the opening day.

Largest enrollment Monday was in the Education course which attracted 210 students, compared with 209 on 1947's opening day.

Other registrations Monday were: Agriculture—41 79; Arts and Science—83 121; Commerce—62 101; Engineering—126 205; Household Economics—28 38; Pharmacy—47 51.

Earlier this month registrations

of 149 in nursing, 124 in dentistry, and 127 in medicine were accepted. These were first, third and fourth year students.

Second year medical students will register later this week, according to registrar G. R. Taylor.

LATE PENALTIES

Monday's registrations were not the finals in any course, Mr. Taylor explained, as undergrad registration will continue until noon Saturday, after which time a late-registration fine will be levied.

Seniors have two more weeks to register, he stated.

Money went fast at the start of a university term as first year engineers Jack Cooper and Desmond Price discover while they watch book store attendant Margaret MacLean tot up the reckoning for their first lot of texts and supplies.

Man's police here said today that the front bumper of the truck struck the scooter, police said.

Herbert Grams, 22, of 1024 81 avenue, allegedly the driver of the truck, was arrested at the scene of the accident and charged with dangerous driving.

He reserved place in court today and was remanded to September 28.

PASSENGER'S SHOUTS ALMOST CAUSE PANIC

Recipe for panic! Start hollering "Whoa, Whoa!" on a crowded street car at the middle of the High Level bridge.

That's what happened on a South Side-bound street car, going the same direction.

Our passenger thought there was only one truck on the bridge. He thought the train would shove the car over into the river valley.

So he yelled "Whoa, Whoa!" at the top of his voice.

Result: Twenty-five badly-scared men and women when the street car reached the south end of the bridge.

LIFE'S DARKEST MOMENT

This does not mean, of course, that bachelors of arts should be ground out like links from a sausage machine. There has to be a certain measure of selectivity in any educational system. But it does mean that the general enlightenment of all the people is an inescapable part of our political system and that a high university registration is, in a general way, a barometer of social, economic and political virility.

It is manifestly absurd to recognize

As a matter of national good faith, the rest of the chests should be dug up and sent home without any more undignified and stupid bickering about it.

This highly idealistic gesture, no matter what its moral value may have been, was an invitation to the gangster elements in humanity, which seem to be always with us, to renew their plots against the order of the world. It may be said that the Second Great War was born in Washington in 1921.

Britain therefore, doubling her Pacific fleet and renewing her fortifications and laying defensive plans with her allies, is not looking towards another war.

B

By Harold L. Weir

And I was made to kneel on a heated grating, which scorched the bottom of my skin from my knees, while I repeated a savage oath of slavish obedience to upper classmen.

I am rather proud of that initiation and strangely enough I remember it much more vividly than most of what went on in classrooms.

However, apart from that assurance, the beginning of the term, university life in my day was a tedious affair. We ranged all the way from dull dogs to

sickening pedants. And it was in that period that I first learned, I think, that no shirt is too young to stuff.

Lighter Touch

I know that the lighter side

Lonely
People

Editor, Bulletin—I would like to express through the letters to the editor of your valuable paper a few of my thoughts and perhaps obtain the views of some others who find themselves placed as I am—"lonely."

There is a vast number of middle-aged people (men and women) who are left alone after having spent many years of contentment and happiness, which of course have been mixed with cares and worries, but because they were shared with another equally interested, forged a link to bind them more closely to-

Then, when they needed each other most, one was called to his or her reward, leaving a loneliness which is very hard to overcome but could, I think, be helped a little by the company of others placed in like circumstances.

In many cases these people have everything they need except companionship and they have not any opportunity to meet and mix with those who are in a like position and who also crave companionship.

Please do not misunderstand me. Marriage is farthest from my mind. But why could there not be a club or society where these people could meet and spend a pleasant evening together with

If someone would only become interested and could organize a club, I believe it could be made

orthwhile.
Let us have a few opinions.

**Hazard
"corner"**
Editor, Bulletin—It is with a
sense of parental duty and not
without emotion that I write my
last letter to the city papers.

On Sunday morning I was roused by the crash of a northbound truck that finally stopped in the lane of my home, after knocking down two telephone poles. This was not a night-driver; the accident was at 10:00 a.m. All three major accidents at our corner—82nd St. and Jasper—in the last two years were also in the

time. Happily only one driver was seriously hurt. These accidents are a source of grave anxiety to my wife and our seven children, and also to our neighbors. We who live above the city

"Why on earth are you praying for presents in such a loud voice?" he queried. "The Lord is not deaf!"

"I know," replied Jimmie, "Grandma is."

Promoters Square Off In Ring War

Verbal Battles Every Hour;
Cerdan-Zale Title Go Tonight

NEW YORK, Sept. 21.—(AP)—The biggest fight week the east has seen since the Civil War draft riots opened Monday with two rival promoters issuing verbal broadsides every hour on the hour.

The Tournament of Champions, lastly newcomers to the promotional field, declared that fully \$10,000 worth of clients would witness the middleweight title fight Tuesday night at Jersey City between Tony Zale of Gary, Ind., and Marcel Cerdan, the French Moroccan.

From Mike Jacobs old firm, the 20th Century Sporting Club, came a counter-blast in the punch that its Thursday night event, which it is promoting at the Garden, will have a crowd of 10,000 and two pugilists, champions, would make boxing history.

The T. of C. announced bravely, that Zale and Cerdan, both beautifully conditioned, would weigh in at noon today at the Jersey Gardens in Jersey City, and that Zale was confident of knocking gold-rust Marcel kicking without a word.

SOMETHING NEW
A voice from the 20th Century pointed out that the T. of C. is a lightweight champion, will become the first 135-pound king ever to defend his crown three straight times within four months when he faces Jesse Flores at Stockton, Calif., Thursday night.

Also, the voice insisted that whoever, champion, Super Ray Robinson, who kicked Kid Cavan of Cuba in the second round of the stadium, will be a non-title go, incidentally could murder both Zale and Cerdan the same night, giving a short rest period.

The 20th Century spokesman made no secret of the fact that whoever night's champion will be on just for the sell of it, with no real expectation of a profit.

We haven't yet seen anything on any size and we aren't making any big predictions," the voice said. "We said it along that way, we're happy to do \$100,000 or better, and if we can't do it, we'll be out of the game."

ZALE STILL FAVORITE
Although Zale remains a favorite to retain his 160-pound title, he has been out of it 17 opponents and in the other one he himself stopped by Rocky Graziano. Whether the "Iron Man" now 34, will be kept 35 against a busy bee like Cerdan is a question which might require an answer.

No one doubts that Zale is the harder puncher. He is capable of beating any man he can hit solidly. It all seems to depend upon whether Cerdan will hold his own.

If the bout goes the limit, the referee alone will give the decision. There are no judges in Jersey. If either fighter is knocked down he must take a count of eight before resuming, whether he needs it or not. It's the law.

Cerdan late last night agreed to new terms for the fight, after wrangling all day with Promoter Ned Deiderer, but he refused to accept a guarantee of \$50,000 with the privilege of taking 20 per cent of the net.

Cerdan originally had signed for \$50,000, but Monday Deiderer agreed to force him to take a one-half per cent of the gate instead.

Deiderer, who is also a promoter of C also may face trouble from Walcott. Jersey has been beating Deiderer, but he has been beating Walcott. Jersey has been beating Deiderer, but he has been beating Walcott.

Joe DiMaggio Keeps Yanks In Fictive American Race

NEW YORK, Sept. 21.—(CP)—Joe DiMaggio hit his 50th home run of the year Monday—but it was his eighth-inning single that made him a hero.

The single drove in two runs and gave the New York Yankees an 8-7 victory over the St. Louis Browns.

But the tight American League pennant race remained tight as a drum with the first-place Boston Red Sox pasting Detroit Tigers 7-2 and slaying one-half game ahead of Cleveland Indians. Yankees are a full game behind the Sox. The revived Indians stayed in position by beating Philadelphia Athletics 6-3.—their sixth straight win and their 13th in the last 15 games.

In the National League, the nose-diving Pittsburgh Pirates continued 7-2 to the Philadelphia Phillies. Brooklyn pulled to within 5½ games of the first-place Boston Braves who were rained out of their game with Cincinnati.

The Dodgers blasted four runs off Hank Borowy in the first inning, breaking Chicago Cubs 6-2 and breaking their second-place tie with the St. Louis Cardinals. Cliff Chambers replaced Borowy in the second and pitched seven innings of no-hit ball, but Cub batters were tied up by Ivacher Rios.

On the mound for Boston, southpaw Mike Hickey scattered four hits and two walks in six innings, but he was out of the game in the eighth. The Browns threatened in the eighth. The Browns threatened in the eighth. The Browns threatened in the eighth.

Harris walked nine men but was hit in the clutches at Detroit. Harris walked nine men but was hit in the clutches at Detroit. Harris walked nine men but was hit in the clutches at Detroit.

Sporting Dog Trial Plans Are Completed

Final arrangements for the sporting dog trials at Edmontan Beach Sunday, Sept. 28, have been completed, according to Norman Lee.

Four classes are scheduled for the day-long trials. There are 15 entries in each of the open all-age and novice classes and an indefinite number for the puppy division. The free-for-all trials, which is open to all breeds of hunting dogs, is a new wrinkle to the 1948 trials.

The trials plan considerable emphasis on the open all-age event since the trials in this trial demonstrate the techniques used in every day hunting.

Canadian Golfers In Open Warm-Up

VANCOUVER, Sept. 21.—(CP)—It rained at Shaughnessy Heights golf course Monday, and when it rains at Shaughnessy it does just that.

Two days before the start of the Canadian Open golf championships most of the swelling number of arrivals laughed off the rain and went out to play.

They found the rain-soaked, par 72 course flat, but Tompon, British Columbia secretary of the Canadian Professional Golfers Association, pronounced the precipitation "a trial."

Jack Archer, of Lachute, Que., knocking over after nine holes with a 68, and a 70, and a 71, and a 72, and a 73, and a 74, and a 75, and a 76, and a 77, and a 78, and a 79, and an 80, and an 81, and OPENING NIGHT of Army Week at Prince of Wales Army attracted thousands of civilian visitors Monday. Here onlooker Cecil Rieker listens intently as Bdr. J. C. Hrychowian of the 20th Heavy Anti-Aircraft Battery (reserve) explains how radar equipment reveals approaching planes.

Army Week Show Draws Thousands of Spectators

A gigantic display of army equipment and mechanism, greatest of its kind ever shown in Edmonton, Monday night attracted thousands of Edmonton citizens to Prince of Wales Army.

The big army building was transformed into a huge showroom, displaying to civilians everything from the way the army cooks its meals in the field to big anti-aircraft guns and radar equipment.

Monday night's "open house" was the first of a series to be held every night this week, marking Army Week throughout Canada.

The big display is appealing to every visitor.

It gives the civilian an excellent idea of how the army operates and the tools it works with.

Not a single piece of army equipment is left out.

FOOD PREPARED
A model ration depot, displayed by the Royal Canadian Ordnance Corps, shows how army rations are prepared. It is all arranged just as it would be in an army supply depot near the battle front.

A field cooking unit is one of the most realistic displays of the entire lot of exhibits. Army cooks are kept busy baking buns and cooking hamburgers just as if they were in the field.

The stove is made of brick, held together by mud as mortar. And on this stove, the cooks are cooking hamburgers in mass production.

NEWLY-ELECTED ELKS' OFFICERS who were installed Monday night at Edmonton's Jasper Avenue B.P.O. Elks' Lodge were: Seated, from left, Kenneth L. Lawson, Exalted Ruler; T. R. Pladager, Leading Knight; Derek Browne, Royal Knight; R. Otto, Lecturing Knight. Standing, from left: W. H. McColg, and J. W. David, Trustees; J. S. Thomson, Secretary; Arnold Entwistle, Tyler; G. R. Stewart, Esquire; K. E. Kirkwood, Historian; J. F. Sawchuk, Inner Guard; E. A. O'Neill of Wetaskiwin, Deputy Grand Exalted Ruler.

Edmontonians Get Behind Scenes at Army Week Display

RADAR SCREEN in one of 20th Heavy Anti-Aircraft Battery's huge trucks is inspected by Ronald Connell, one of thousands who visited gigantic army display. Bdr. H. B. Clark, of the reserve force, explains principal of the expensive equipment which was kept secret during recent war.

In a separate part of the engineers' exhibit is a big drafting board and oiling printing machine which prints copies of drawings similar to blueprints.

A piece of drafting paper with the Royal Canadian Engineers' crest printed on it will be given away as a souvenir to those visiting the army during Army Week.

Visitors sign the sheets and then they are put through Oiling machine and the signature is printed.

A chaplain's booth is also set up on the big floor to explain to visitors the chaplain's part in the army.

H/ Major R. O. Wilke, Western Command chaplain and H/ Major E. J. Bailey, reserve chaplain are on hand to explain their duties to civilians.

MOBILE WORKSHOP
A mobile workshop is set up for exhibit by the R.C.M.E. It shows various types of welding outfits, lathe and other equipment used in maintenance work.

Various types of guns and live ammunition are displayed by the Royal Canadian Ordnance Corps.

One of the major displays of the show is a collection of guns, machine and flags of the Royal Edmonton Regiment.

The collection was taken in battle during the recent war by Edmonton soldiers.

MODEL PLANE GROUP TO GET NEW FIELD

Establishment of a flying field for model airplanes in Edmonton is announced by Robert Randall, senior, president of Model Aeroneers.

Site of the project is a 116 acre, one block west of Kingsway. First exhibition is planned for the afternoon of October 3.

Jointly sponsored by the RCAF and the Edmonton Recreation Commission, the plan is designed to provide both hobbyists and spectators with the best available facilities.

Sgdn-Ldr. F. J. Edwards, officer commanding the Edmonton Air Cadet squadron, will act as liaison officer between the club and the RCAF.

British Opera Star Dies in Edmonton

Constance Drever, one-time prima donna of the British Light Opera halls and toast of London, is dead.

The former opera star of the era prior to and during the First World War, died Monday in an Edmonton hospital following a heart seizure.

She has been living here for the past year.

Accompanied by her husband, Randall Stevens, Constance Drever was last seen in August of last year for a four months visit which ended with the family making their home here.

PIONEER FLIER TELLS OF NORTH ADVENTURES
Pioneer aviation in Canada's northland paved the way for the Alaska Highway, W. R. (Wop) May of Edmonton, famed bush-pilot and adventurer, told delegates to the Northwest Aviation Planning Council convention in Vancouver Monday.

With his brother, May organized the first commercial flying company in the west. Their hope was to explore for oil and minerals in the Mackenzie River and Great Slave Lake areas.

They got the first mail contract with the Dominion Post Office Department, and flew mail for four years without a loss.

Small operators, he said, built all strips on their own initiative along what is now the Northwest Staging Route.

These strips were placed so strategically that U.S. engineers, when they started the proposed Alaska Highway route, joined them to gether.

Purple Gas Brings Fine

Constant Har, Edmonton district farmer, was fined \$10 and costs in police court Monday for breach of the Fuel Oil Tax Act.

Har was fined for using purple gas oil, sold at tax-free price for farm machine purposes, in a motor vehicle.

City Council Will Grant Authority For Bond Sale

Authority will be given the city commissioners today, at a special meeting of city council, to proceed with the sale of \$1,000,000 of Edmonton debentures, it was learned today.

This issue will cover cost of installing and housing a 30,000 kilowatt turbo generating unit at the power plant, complete with boilers and auxiliary equipment, and the cost of the erection of housing structure.

The addition to the power plant is nearing completion, and it is anticipated it will be in operation about December 1.

The turbo generator was ordered from C. A. Parsons Co. Ltd., Newcastle-On-Tyne, England, about two years ago, and delivery of the machine started at the beginning of this year.

In a recent report to the commissioners, W. I. McFarland, power superintendent, estimated that an additional 30,000 kilowatt unit would be needed in the near future to take care of the expanding power demands from industry and residential power users.

The brick addition to the power plant, to house the machine, was completed last fall.

Auxiliary engines and boilers for the extension to the plant were manufactured in Canada.

In a recent report to the commissioners, W. I. McFarland, power superintendent, estimated that an additional 30,000 kilowatt unit would be needed in the near future to take care of the expanding power demands from industry and residential power users.

PALESTINE POLICE FORCE VETERANS ARE IMMIGRANTS

Latest arrivals from England under the Alberta government's immigration scheme include eight former members of the Palestine Police Force.

Alberta government officials revealed today Mr. Britten have arrived in this province over Sunday, yesterday and today.

The latest contingent arrived in Canada recently aboard the Aquitania.

Government officials said 120 more Britons would be leaving England shortly.

Heavy Winds Wreck Plane, Sink Barges

Extensive property damage has been caused in the vicinity of Lake Lake by a raging windstorm which struck early Monday, according to reports relayed here by North West Territory and Yukon Radio Systems R.C. Signal.

According to the report, a Norseman aircraft owned by the Hudson's Bay Company was blown ashore from its moorings on the lake and was completely wrecked. Barges in the process of being unloaded were sunk along with their partially unloaded cargo.

Dominion Meteorological station in Edmonton, said today that winds in the area were reported lighter early today, but that the regular 6:30 a.m. report had not been received.

Peak velocities of 59 miles an hour were recorded during the storm.

Police Seek Hit and Run Bike Driver

City police are seeking an unidentified cyclist who struck and injured a two-year-old child Sunday near 115 avenue and 123 street.

Injured was two-year-old Judy R. Wardstrom, 1152 123 street.

Two witnesses were required to close a cut above the child's eye, and she also sustained numerous bruises to her face and body when the cyclist struck her as she was playing on the sidewalk near her home.

Name of the cyclist, who is believed to have been riding his machine on the sidewalk, is not known to police.

It is believed that copper was first used about 3,500 B.C. by the Egyptians.
